

The Scholar Profile

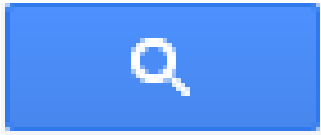

(aka Google Scholar Citations)

Take  from Slideshare, June 2014
[http://www.slideshare.net/SarahG_SS/
how-to-set-up-your-google-scholar-
profile-google-scholar-citations](http://www.slideshare.net/SarahG_SS/how-to-set-up-your-google-scholar-profile-google-scholar-citations)

About Google Scholar

- Search for scholarly literature (e.g. articles, theses, books, abstracts, etc)

Features of Google Scholar

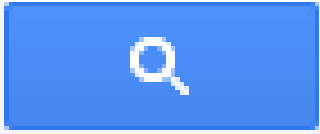

- Search all scholarly literature from one convenient place
- Explore related works, citations, authors, and publications
- Locate the complete document through your library or on the web
- Keep up with recent developments in any area of research
- Check who's citing your publications, create a public author profile

About Google Scholar

- Search for scholarly literature (e.g. articles, theses, books, abstracts, etc)

Features of Google Scholar

- Search all scholarly literature from one convenient place
- Explore related works, citations, authors, and publications
- Locate the complete document through your library or on the web
- Keep up with recent developments in any area of research
- Check who's citing your publications, create a public author profile

About the Google Scholar Profile

- Google Scholar Citations

- Keep track of the citations of your articles

- Who is citing them
- Graph over time

- Metrics

Citation indices		
	All	Since 2008
Citations	161	82
h-index	6	6
i10-index	6	2

- Private/public

- If public, seen in a Google Scholar search for your name!

Profile

Track citations to your publications. Appear in Google Scholar search results for your name.

Name:*

Affiliation:
For example: Professor of Computer Science, Stanford University

Email for verification:
Use an email address at your institution. For example: yourname@mit.edu

Areas of interest:
For example: Artificial Intelligence, Conservation Biology, Pricing Theory

Dates and citation counts are estimated and are determined automatically by a computer program.

- Complete the required fields and as much additional information as you are willing to provide
- Note: a university 'email for verification' is required to appear in the search results!

Add articles - Sarah G.

Find articles that you've written and add them to your profile. Later, you can edit or delete the articles in your profile or add more articles to your profile.

Try searching for your name, article titles, co-authors, or topical keywords.

Profile updates

- We'll use a statistical authorship model to identify new articles that you write. We may also update bibliographic information for articles in your profile or identify duplicate article entries, which could be merged or deleted. How would you like to handle these changes?
 - Automatically update the list of articles in my profile. *(recommended)*
 - Don't automatically update my profile. Send me email to review and confirm updates.
- You can also add and remove individual articles, update their bibliographic data, and merge duplicate records. Rest assured, our automatic updates will preserve your edits and will not override them.
- We'll collect and display citations to your articles from all of Google Scholar. The citations will update automatically to reflect changes in your profile and in Google Scholar.
